# Warrior Broadcast

**Ski/Skate:** Please remember to let your child's teacher know if you are picking your child up at the skating rink. It makes it very difficult when our teachers are in a panic because they cannot find a student and have simply not been made aware that he or she went home with a parent.

**Emergency notification list:** Alison Couture has graciously agreed to put together a system whereby certain parents would have a list of students to call in case of an emergency while the students were at school. This list would be used in the event of a weather related incident or any other situation which would call for an early dismissal. If you are available during the day to be a designated caller, please inform the office or leave a note with your child's teacher.

**Special Offering:** Before Christmas break we took an offering for the fire victims in Barre. Thanks to the generosity of each one of you we were able to write a check for \$739.00.

**Midterm Exams:** Our Junior/Senior High students will be in exams next week. Please remember that any period a student does not have an exam, that student may go home during that period.

*As a school we have come on some rocky times financially due to the failure of a few parents to pay tuition in a timely fashion. Please remember that we deliberately keep tuition low in comparison to other private schools in recognition that it is a struggle to send children here. Unfortunately by keeping tuition low, we put our reputation and ability to pay our bills in the hands of you as parents. If you are a parent who is behind in payments, please commit to making one or two months payment by this Friday. This will go a long way toward clearing up our deficit.*
