Warrior Broadcast

We would like to take a minute and thank each of the athletes and coaches who helped make this past basketball season successful. We believe athletics are a valuable part of the whole educational process, as well as serving to bring people together during those cold winter days. We eagerly await another great season next year.

Two of our varsity athletes deserve special recognition:

Andrew Shuman scored his 1000th career point in the playoff game against Craftsbury. This is a tremendous accomplishment and something to be very proud of.

James Tetreault is a senior this year and thus will not be returning next year. He has been an integral part of our basketball program throughout his time at WBCS. We appreciate his commitment to the school and to his teammates.

Please join us in thanking these individuals who make this a quality and God-honoring program.
